

K-Love radio is an island of encouragement and hope for myself and my family. My husband and I are raising our three small grandsons. For them to hear a message of hope on the radio is a value I can not put a price on.

This radio station is supported by the listeners. It would be a shame to loose the ability to enjoy K-Love Radio everyday.

This Radio station does not broadcast anything I would be offended by or wonder if my children should be hearing.

The outreach this station is involved with is dedicated to saving lives and helping people cope with the stresses of everyday life.
